We are in the moulding business

OK PLAY, a British company was taken over towards the end of 1992 and established in India as a fully owned entity. Since then, OK PLAY has emerged as the largest manufacturer of plastic moulded toys, playground equipment and children’s furniture in the country.

Today, OK PLAY products are distributed all over the country through a network of over 50 distributors servicing 8000 retailers. OK PLAY’s manufacturing facilities located at Sohna, Haryana and Ranipet, Tamil Nadu are at par with the world’s finest. The fully integrated, state-of-the-art plants have the latest generation, fully computerised machines for mould design and fabrication, all types of plastic moulding, post moulding facilities and an assembly line. The sophisticated facilities, operated by trained and experienced professionals, ensure precise mouldings resulting in a quality that measures up to the finest in the world.

OK PLAY is not just another brand. It is a whole new approach towards children. Each product is created with the belief that playing with a toy should be as much education as it is fun. While each toy is designed to make a child jump with joy, it is also meant to impart a process of learning, an understanding of how things work as well as to foster group interaction. After all, the child is the father of the man. And no one understands this better than OK PLAY.

We use the highest quality virgin plastic which is completely safe and non-toxic. Our products are ergonomically designed with smooth, rounded edges, wide and sturdy base, and easy to grip handles. They are durable, weather-proof, easy to install and available in attractive colours.

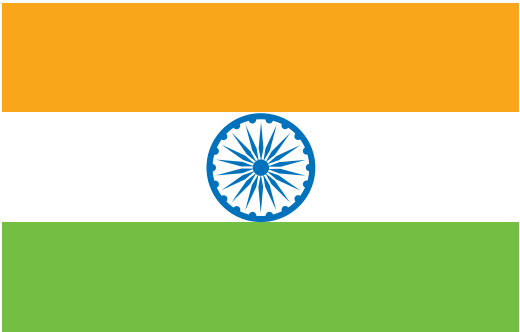

We present, in this catalogue, a collection that is designed to make your precious one’s childhood a lot more joyous and playful.
